## ABOUT

A highly motivated software developer with expertise in Java, Python, and database management, specializing in designing and developing scalable applications. Proficient in data structures, algorithms, and web development, with a strong analytical mindset for solving complex problems. Continuously committed to enhancing technical skills and staying updated with emerging technologies to drive innovation and efficiency.

---

## EDUCATION

SRM Institute of Science and Technology  
Bachelor of Technology in Computer Science and Engineering  
specialization in Data Science (CGPA of 9.50)

August 2023 - June 2027  
Chennai, India

Progressive English School, Sharjah  
Grade 12 (Percentage: 91.0)

May 2023  
Sharjah, United Arab Emirates

Progressive English School, Sharjah  
Grade 10 (Percentage: 91.0)

May 2021  
Sharjah, United Arab Emirates

## PROJECTS

### Food Ordering System (Java, DB Connectivity)

September, 2023

Built a menu-driven food ordering system with database connectivity, handling orders, billing, and tax calculations.

### Credit Card Fraud Detection System (Machine Learning, Python, DB)

October, 2024

Developed a fraud detection system using machine learning algorithms to analyze transaction patterns and detect anomalies. Integrated Python, data preprocessing, and database management for real-time fraud detection.

### Financial Tracker (AOOP, Java Swing, DB)

January, 2025

Developed a Financial Tracker using Java Swing with database integration, enabling users to manage expenses, track income, and generate reports.

---

## TECHNICAL SKILLS

C++  
Python  
Java  
AutoCAD
